IT'S PROBABLY A STATE SECRET

Have you noticed the rain? The opposition in State Parliament reckon it's just another Brumby trick to con the masses.

Yandoit over the waters. The photographer arrived a bit late. Apparently, some hours earlier, the waters in High street were lapping half way up the primary school bin out the front, and the little lake you see above filled the paddock.

The Jim Crow at Batts Bridge. Pity its not all year round. No stories of fish at this stage.

The Bridge over the River Crow – Jones

Road.

There is a story connected with this bridge. It's a magnificent metal structure that looks like a crane on its side.

We need someone to do a bit of fiction and sell it to Hollywood. Get all the old uniforms out; we could have full employment in the area.

Last Year's Bonfire. People saw the camera coming and vamoosed.

Same problem here. There were people at the bonfire I tell you!

Anyone got any stories?

If you have any interesting pictures or stories of local stuff give the editor a ring.

The other way is to contact John Ross of music and web design fame.

Certainly if you hear of any miracles let me know and I'll pass them on to our man in the Vatican. Got to be near death experiences and someone involved should be a Catholic. The present Holy Father is not letting in any outsiders to the higher ranks of sainthood at this stage.
